NEXT GENERATION IT SOLUTIONS

www.araanto.com

"A Thousand-Mile Journey Begins With A Single Step."

Mr. Kishan Gajera
(Founder)

We at ARAANTO have always believed that true commitment to quality and passion for innovation is always rewarded. And that is why we have addicated ourselves to bringing our customers the best and the most innovative electronic security and surveillance solutions.

This passion has been appreciated by security specialists around the world. No wonder that today globally, ARAANTO is the preferred brand of security and surveillance solutions.

ARAANTO offers an extensive portfolio of the nest end-to-end offers Traffic, Transportation, Building, Culture, Education and Healthcare.

ARAANTO has left no segment unsecured and no application unexplored. From residential and SME to city surveillance, government, institutions, traffic monitoring, railway, airports, buses, banking and & finance, retail, commercial, education, healthcare, energy resources, transportation, sports & leisure, manufacturing & industrial and many more.

On behalf of ARAANTO, I would like to thank each one of you- our partners, customers and end users for your consistent support & encouragement. You truly are the inspiration behind our achievements.

"We promise that we will not rest on our laurels but will continue to strive to live up to the trust that you have placed on us."

VISION

To be Earth's is most customer-centric company, where customers can find and discover anything they might want to buy.

MISSION

We understand the challenges faced by security professionals and seek to find solutions by creating new technologies and breakthrough innovations. We are committed to continuously enhance, improve and better.

OUR JOURNEY SO FAR

- 2007 An aspiring entrepreneur mind got thought to bring PDLC technology in indian market while watching one scene on television of the PDLC technology.
- 2009 Dreamt to create world class technology for users
- 2011 Planned to start automation company by seeing bulb starts with the shadow of hand on LDR during the practical of 2nd year of Diploma electric.
- 2012 More working prototypes are created, and well -equipped MAP scientific R&D centre is established.
- 2013 The project of CCTV surveillance is inaugurated
- 2014 An unit for home automation, slide gate and glass door automation is founded for the luxury and comfort.
- 2015 Araanto international is started as Sister company. The focus is on developing newer technologies and product portfolio expansion.
- 2016 In few years Araanto breaks records by installing 25000+ CCTV and 4500+ computers
- 2017 With the trust and support of clients one more sister company is started with name of HAVUP of Television.
- 2019 Target achieved of working with 500+ schools and colleges. Highest single short award for VDP building solution from DAHUA (INDIA'S biggest order)
- 2020 Put step in led lighting sector with the company named CROSDOT
- 2021 The best year ended with 135000+ CCTV and 12500 Computer and worked with 1000+ educational institutions
- 2022 Decorated 10000+ home and 100+ projects of LED lighting
- 2023 Highest single short award for IDP touch panel from DAHUA (ASIA'S biggest order)
- 2024 Implemented 4500+ panels for smart class & studio setup classroom.

Proudly, Made in India

We are a staunch supporter of india's Make in India initiative. Taking this noble ambition a step further, we have created high-end technologies in-house, with our country's brightest minds working on them and constantly fine-tuning them to create the smartest masterpieces for living.

Our smart technologies are manufactured by highly trained people in Surat, Gujarat, at one of the most advanced state-of-the-art manufacturing facilities in the state.

Strong, In-house R&D

ARAANTO is backed by profound Research & Development by its parent company MAP Scientific.

A strong commitment to developing the finest technologies and matching state-of-the-art Research & Development facilities set us apart.

ARAANTO has devoted a significant amount of time and effort to research and development that meets the highest worldwide quality standards.

The R&D team consists of skilled electrical engineers, software developers, design and development experts, and true blue market analysts. Apart from offering Smart Home solutions, the company is also developing solutions for ports, educational institutes, hotels, Traffic, Transportation, Building, Retail, Healthcare, Culture, Banking & Finance, Critical Infrastructure and engineering industries.

"Good luck message"

**"Technology is the most powerful tool
which you can use to change the world"**

Since the launch of the "Digital India" campaign by **Hon'ble Prime Minister Shri Narendra Modi** the need for digital consumption in schools in India has arisen. My heartiest congratulations to the team of Araanto International for achieving various milestones by providing tea solutions.

The dedication of Araanto International to leverage technology for educational progress is commendable. Through innovative solutions and unwavering commitment, they have revolutionized the learning experiences, by removing bridged gaps in the system of education and empowered teachers and students alike.

In an era where technology plays an increasingly integral role in education, Araanto international stands as a beacon of excellence. His passion for technology to empower education, along with his technical expertise, makes him an invaluable partner in the mission of imparting quality education to all.

I urge Araanto International to strengthen the educational system through technology by making use of this technology at large by other institutions for their invaluable contributions in the field of education.

I would like to wholeheartedly thank Araanto International for their continuous efforts to innovate and contribute to education. His dedication and vision are exemplary and I am confident that his contribution will continue to have a positive impact on generations to come.

Your Sincerely

(Dr. Kuberbhai Dindor)

To
Shri Kishankumar M. Gajera,
